AMERICAN MUNICIPAL WEBSITES

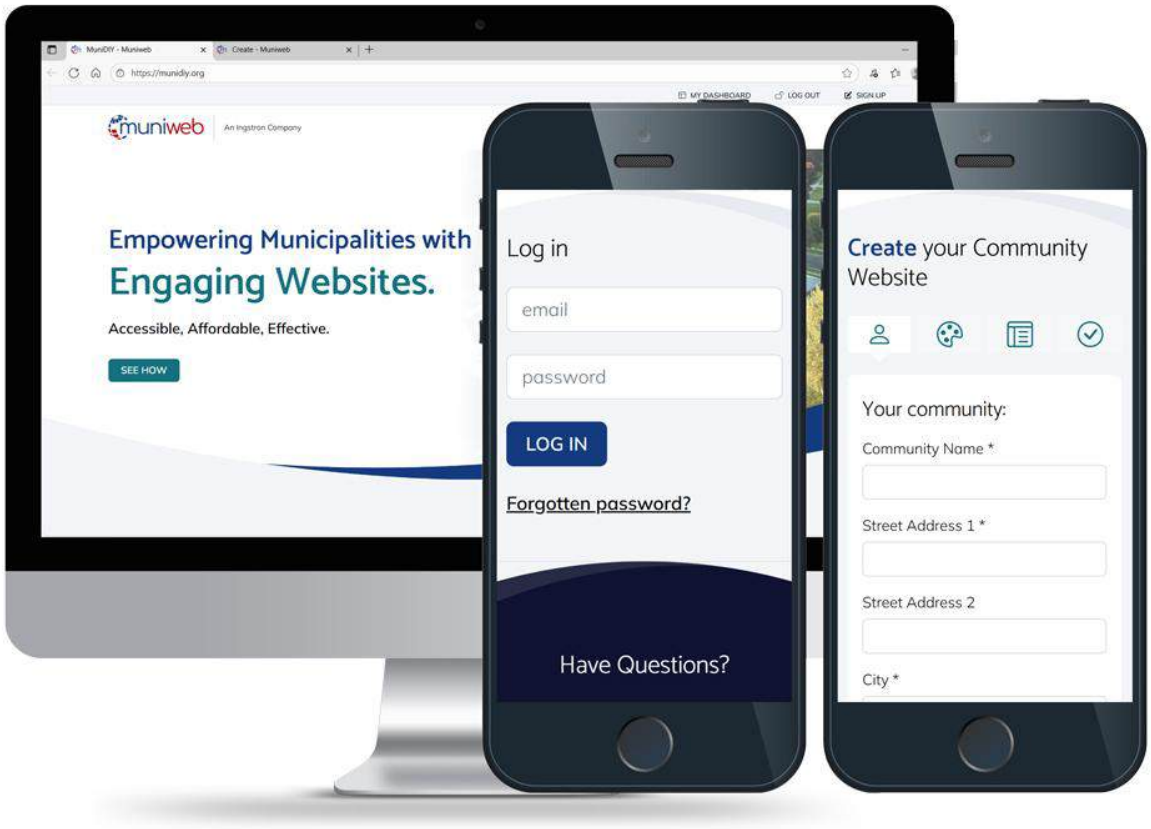

Municipal Web Services (Muniweb), USA – muniweb.com/portfolio
2021 – present

Since 2018, I have designed and developed several municipal websites for U.S. communities and civic organizations, with a focus on **ADA compliance** and modern UX standards.

Each site was built using the **Bootstrap** framework and powered by **Umbraco CMS** and **Kentico CMS**. Wireframes and interactive prototypes were created with **Adobe XD** to streamline the design and approval process.

U.S. MUNICIPALITY WEBSITE GENERATOR APP

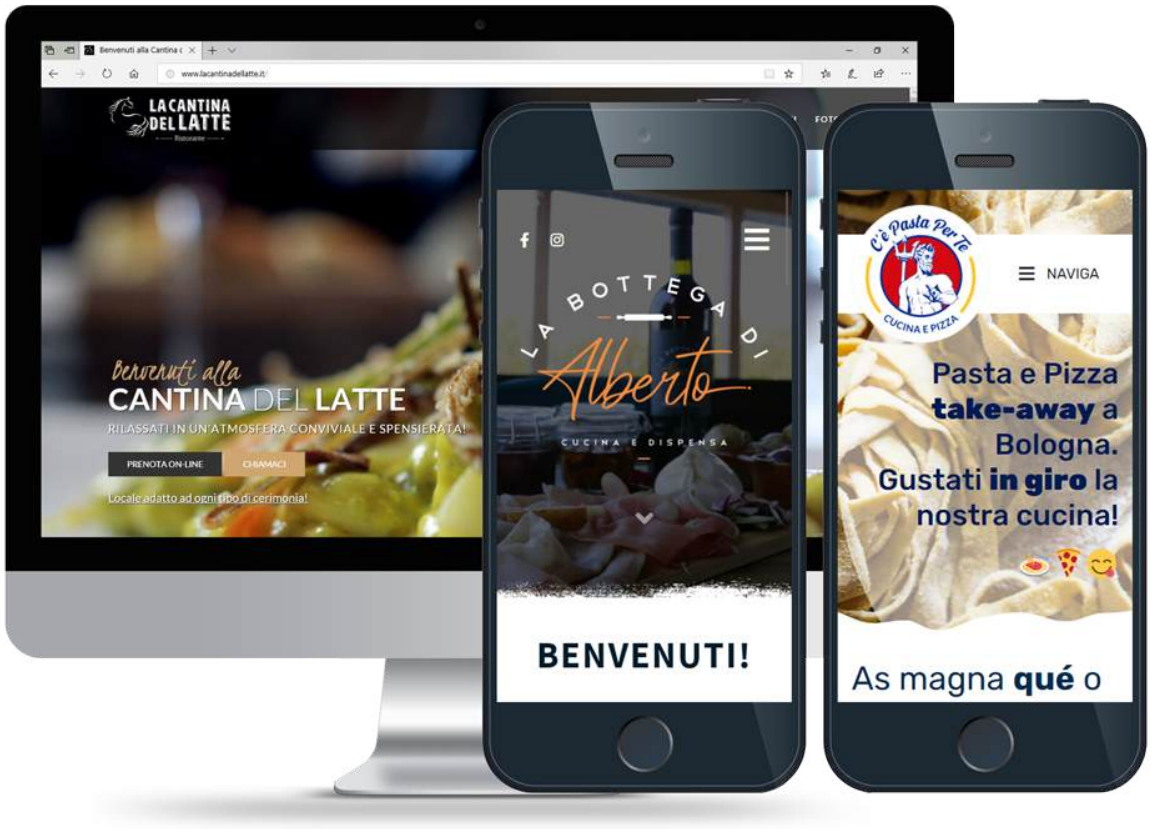

Municipal Web Services (Muniweb), USA – muniweb.com
2023 – present

Designing and contributing to the development of an internal web application that allows U.S. municipalities to easily generate and manage their own community websites.

Responsible for defining (with **Adobe XD**) the user interface layouts to ensure an accessible, intuitive, and scalable experience consistent with Muniweb's design system.

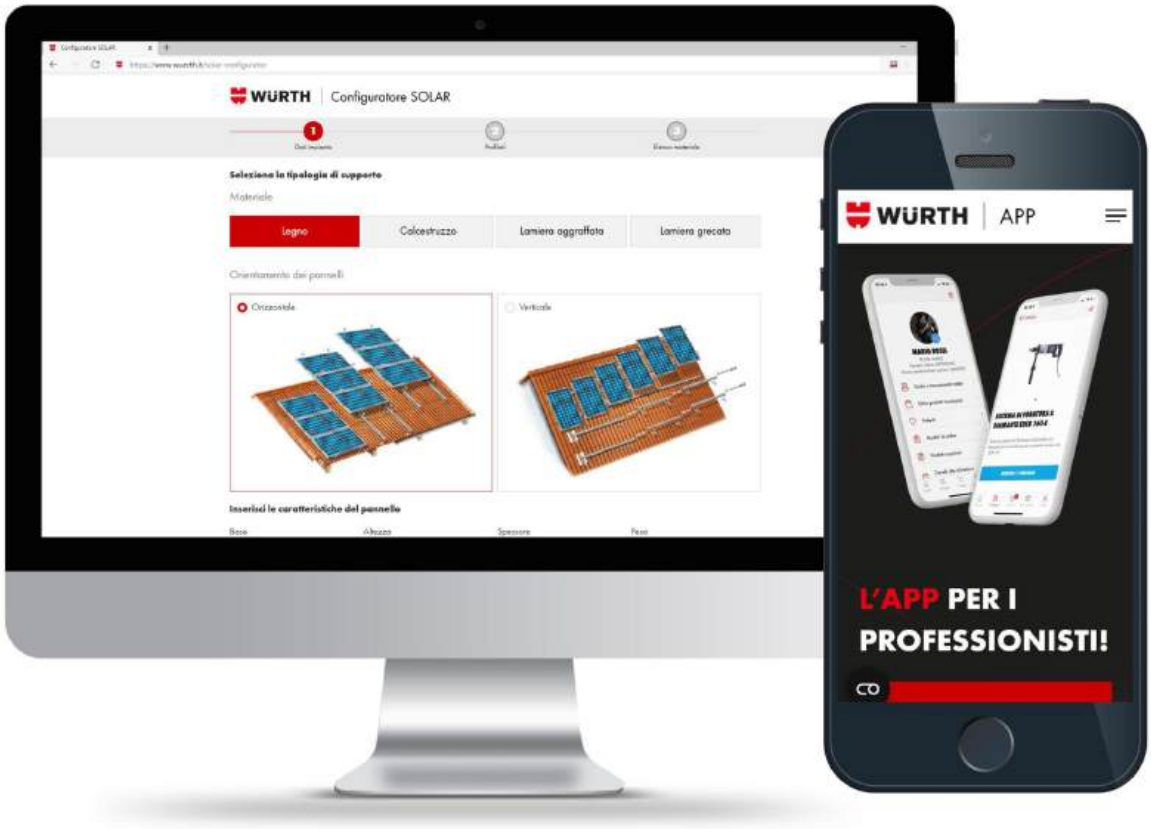

AMERICAN & ITALIAN BUSINESSES

ingstron.com | lacantinadellatte.it | cepastapertebo.it | fioreriadaalberto (in progress) | voxsibyllae (in progress) | and many others…
2010 – present

Designed the user interfaces and experience using **Adobe XD**, then implemented the projects on **Kentico** and **WordPress CMS**. The website features a fully custom theme built with the **Bootstrap** web framework, along with a tailored admin interface configured using **custom fields** to streamline content management.

LANDING PAGES & WEB CONFIGURATORS FOR WÜRTH

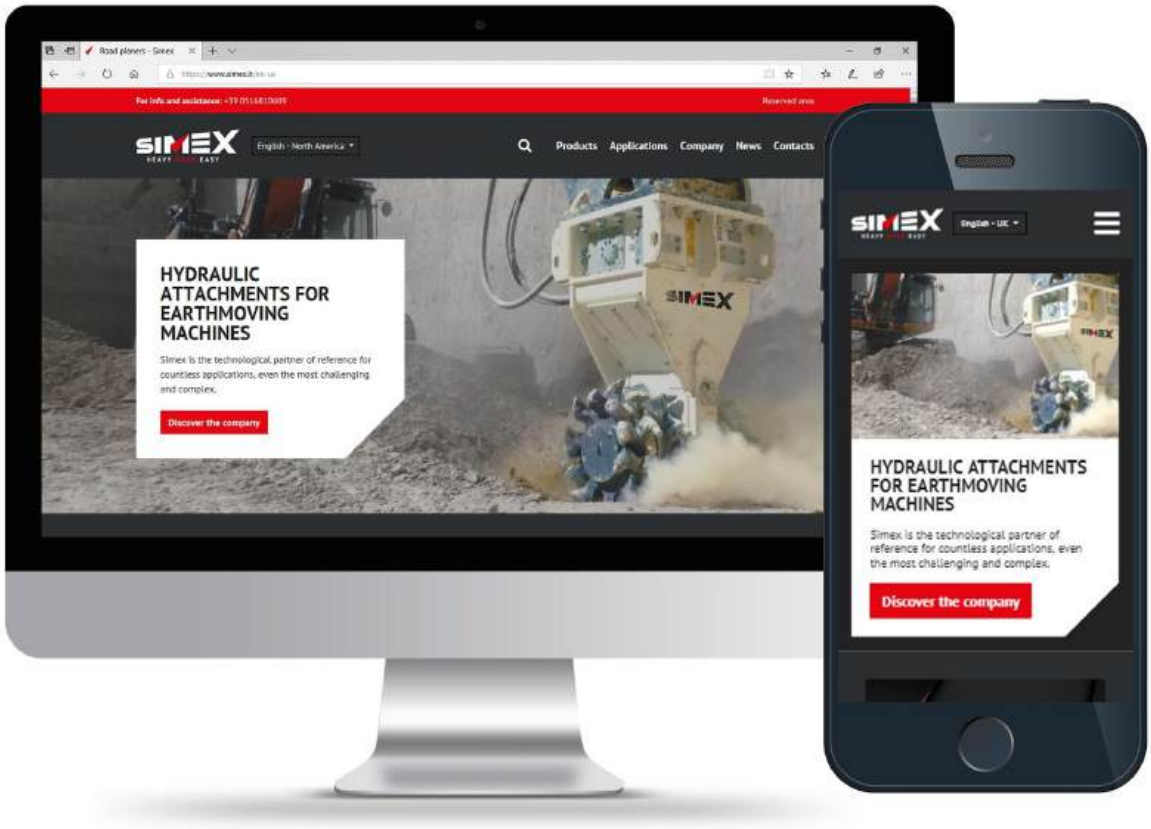

Würth Srl, Italy – www.wuerth.it
2021

I was responsible for the design and development of landing pages, promotional microsites, and interactive product configurators. Projects were prototyped in **Adobe XD** and implemented using **HTML**, **CSS**, **JavaScript**, and the **Bootstrap** framework, sometimes within **WordPress** environments.

This experience allowed me to combine creative design with practical front-end development to support marketing and sales initiatives in a large-scale, enterprise context.

SIMEX CORPORATE WEBSITE REMAKE

Simex Srl, Italy – www.simex.it
2019 - in collaboration with Dinova

Kentico
Site of the Month

Collaborated with Dinova to redesign the Simex corporate website, a leading provider of hydraulic attachments for earthmoving machines. Delivered a multilingual, responsive site aligned with brand guidelines using **Adobe XD**, **Bootstrap**, and **Kentico CMS**.

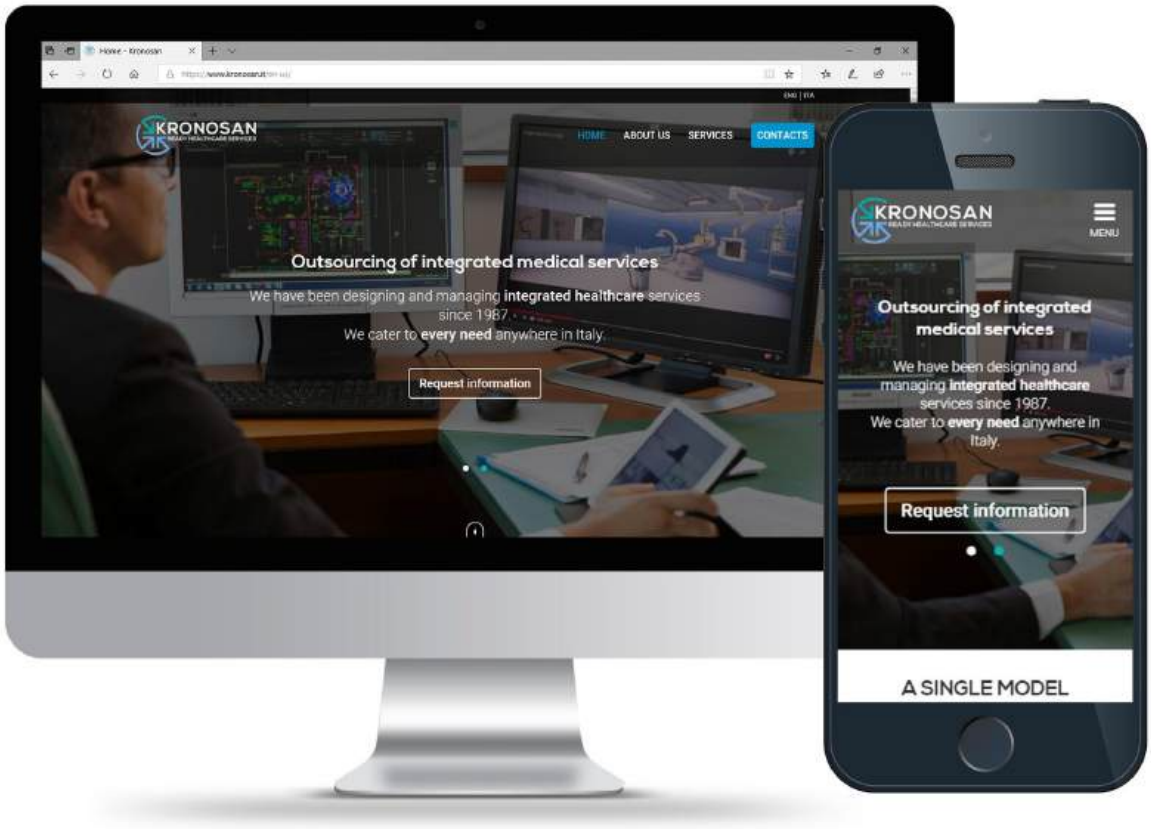

WEBSITES FOR GVM, ITALIAN HEALTHCARE COMPANY

GVM Spa, Italy – www.gvmnet.it
2015 – 2019 - in collaboration with Dinova

Redesigned and developed a multilingual and multisite web platform for GVM Care & Research, one of Italy's leading healthcare and biomedical groups. Built with **Kentico CMS** and **Bootstrap**, with design prototyped in **Adobe XD**.

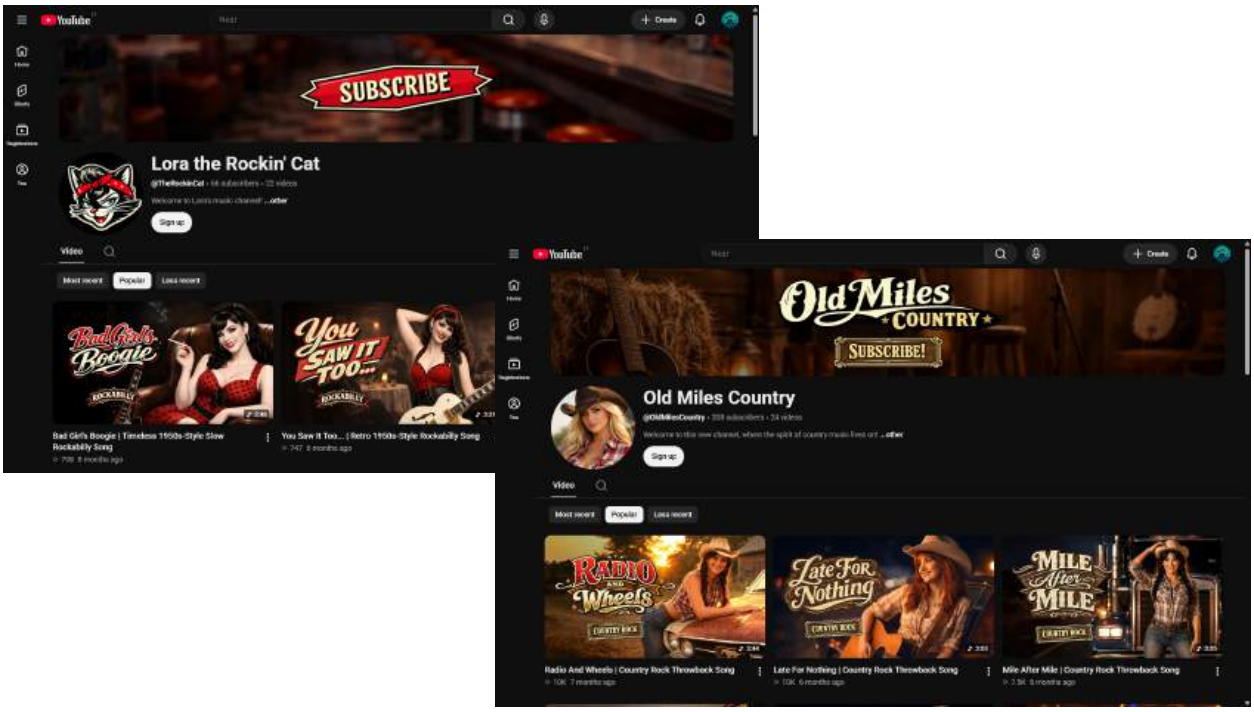

A CORPORATE WEBSITE FOR KRONOSAN - HEALTHCARE SERVICES

Kronosan Srl, Italy – www.kronosan.it
2018 - in collaboration with Dinova

Created a clean and efficient corporate website for Kronosan, a provider of integrated healthcare services. Designed with **Adobe XD** and developed using **Bootstrap** and **Kentico CMS**, with live on-page editing and multilingual support.

YOUTUBE BRAND IDENTITY & CONTENT CREATION

@OldMilesCountry | @TheRockinCat
2026

Developed and managed two YouTube channels, overseeing their visual identity and digital content strategy. Created **logos**, **banners**, **video thumbnails**, **promotional graphics**, and **edited video content**. Managed content planning, publishing, channel optimization, and YouTube SEO.

Thanks for watching.
